

PressProfiler and PressReporter Check for PressCenter Consoles

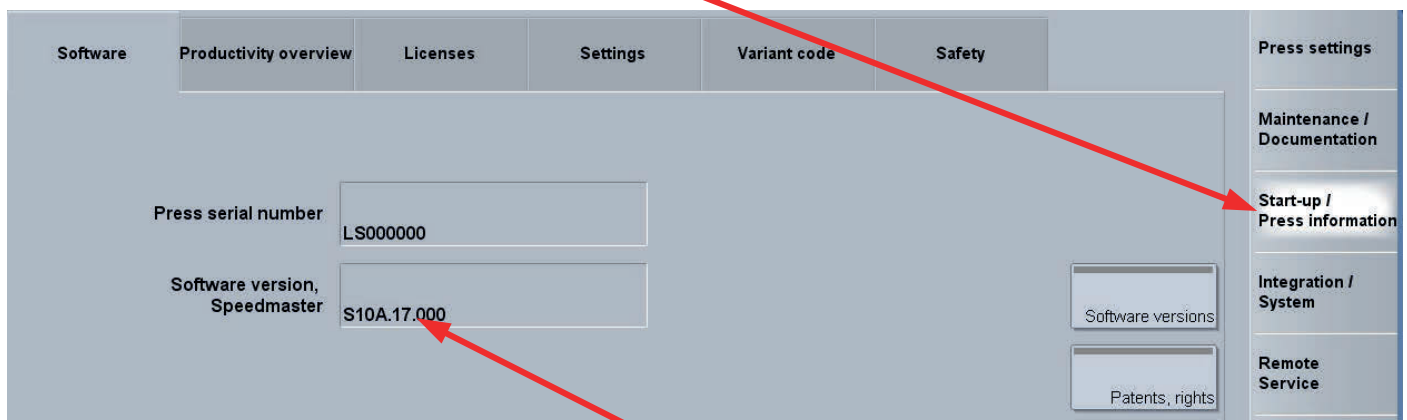

To confirm compatibility please can you check the following screens on your press and send us the press software version and a picture of the licenses, detailed instructions below.

Details

1. Touch the “lightening bolt” in the top right corner of the press touch-screen, then the “spanner” in the bottom right:

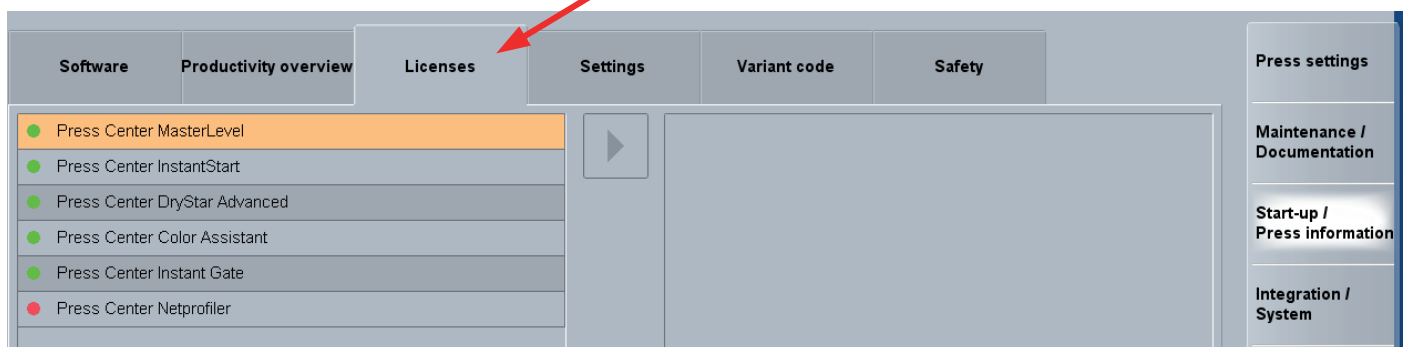

2. Select Start-up / Press information on the right.

3. The **software version we need to know is shown here**

4. To get the License Screen touch the **Licenses** tab at the top. **Please photograph this screen for us.**
